---

## PROFESSIONAL SUMMARY

Full Stack Web Developer passionate about creating an ideal user experience with React. Aspiring to master all React libraries and technologies, I stay innovative by challenging myself to implement new technologies in every project. Recently received a Certificate in Web Development from Denver University. Excellent interpersonal communicator and a proactive collaborator valued on team-based projects and resourceful individually. Deadline driven, I establish measurable goals and relentlessly work to achieve them. Currently I am seeking an environment where I can professionally utilize and grow my skills as a developer.

## TECHNICAL SKILLS

Node.js, Express, JavaScript, jQuery, ES6, React.js, React, React Hooks, JSX, HTML5, CSS3, Bootstrap, Materialize, Handlebars, GIT, GitHub, MongoDB, MySQL, Firebase, Mongoose, Sequelize, APIs, Heroku, Terminal, AJAX, JSON, Stripe

## RELEVANT EXPERIENCE | PROJECTS

---

### CoolCats Conference Planner | Full Stack Developer |

A Conference planner where users can create and discover detailed conference like events.

- **Role:** Implemented MongoDB Backend with full CRUD functionality. Integrated Auth.0 library for user authentication. Created React Components with JSX turnery operators. Deployed using Heroku.
- **Utilized:** HTML, JSX, CSS, JSON, Express, React, Axios, MongoDB, Auth.0, and Server-side APIs

**Deployed Link:** [conference-planner-123432.herokuapp.com/](https://conference-planner-123432.herokuapp.com/)

**GitHub Repository:** [github.com/benimahat1291/ConferencePlanner.git](https://github.com/benimahat1291/ConferencePlanner.git)

### Amazon-Clone | Full Stack Developer |

A fully function E-commerce webpage designed to resemble amazon.

- **Role:** Created and styled all react components. Built a fully functioning Firebase cloud function back-end, implemented Firebase authentication and deployment. Used React-Stripe library to process real-time payments though pay-pal.
- **Utilized:** HTML, JSX, CSS, JSON, Express, React, Flexbox, Firebase, Stripe

**Deployed Link:** [clone-bc3dc.web.app](https://clone-bc3dc.web.app)

**GitHub Repository:** [github.com/benimahat1291/AmazonClone.git](https://github.com/benimahat1291/AmazonClone.git)

### Bookshelf | Full Stack Developer |

An online library where users can loan and borrow books from other users.

- **Role:** Designed realistic bookshelf with a dynamic carousel component. Utilized books API for images and information to render in our application. Implemented a SQL database and deployed to Heroku.
- **Utilized:** HTML, CSS, Bootstrap, AJAX, SQL, and Server-side APIs

**Deployed Link:** [bookshelf-borrow-books.herokuapp.com/](https://bookshelf-borrow-books.herokuapp.com/)

**GitHub Repository:** [github.com/benimahat1291/BookShelf.git](https://github.com/benimahat1291/BookShelf.git)

## PROFESSIONAL EXPERIENCE

---

**Zaika Indian Express; Denver, CO**

02/2016 – 04/2020

***Assistant Manager***

Established a culture of outstanding customer service and the highest standard for food quality. Evaluate inventory and log daily sales reports. Troubleshoot technical issues throughout the store and build customer loyalty through personable interactions.

- Designed a menu adopted by the franchise of five locations throughout Colorado.
- Maintained an above average 4.5 restaurant rating throughout popular restaurant rating platforms.
- Aided in growth of annual sales of 80,000 to 120,000 from 2016-2019.

## EDUCATION

---

**Full Stack Web Development Certificate – Denver University; Denver, CO | 2020**

*A 12-week intensive boot camp program focused on gaining technical programming and market-driven skills.*

**(104 credits towards Bachelor of Science) - Colorado University; Boulder, CO | (2016/2019)**

*Originally pursued a degree in Mechanical Engineering. A passion for coding has driven me to pursue a career in web development.*
